

Nemschoff Presents Parsons Collection, Unifying Spaces with Versatile, Durable Tables

Offering ultimate versatility, the new Parsons table collection from Nemschoff allows for seamless transitions between many different styles and spaces. Offered in a wide variety of materials, colors, and configurations, Parsons tables work beautifully with any combination of furniture.

Durable laminate, veneer, or solid surfaces offer multiple aesthetic options, while the variety of choices in size and configuration provides design flexibility. A palette of simple shapes, colors, and materials allows for creative expression and perfectly tailored solutions that provide consistency between dining or snack areas, lobbies and waiting rooms, and other health and wellness spaces.

The Parsons range includes end tables and console tables in multiple sizes and configurations, and a 36" square dining table. Optional integrated power and USB ports enable designers to easily create a space that anticipates the myriad needs of patients, guests, and caregivers.

Parsons tables are GREENGUARD Gold Certified and feature a Limited Lifetime Warranty. With Parsons, Nemschoff offers one design, but unlimited possibilities. Parsons tables will be on display in space #3-330 during NeoCon, June 15-17, 2015, and are available to the trade now.
