

Colebrook Bosson Saunders Introduces Snowflake Competition

At CBS we always consider the social and environmental impact of the products that we produce and so wherever possible we adopt recognised best-practices for product development, sourcing and management of the business. In keeping with this theme of sustainability our design team has created an upcycled Christmas snowflake made out of Flo and Lima monitor arms. We are proud to be using recycled materials from monitor arms that were at the end of their life to create something beautiful and run our Christmas competition. To be in the chance of winning £250, [click the link](#) and guess how many components the snowflake is made out of (includes screws and internal parts).
