

A Bold New Spectrum for Play: Herman Miller Gaming Launches New Colors & Redesigned Headrest for Vantum Gaming Chair

Zeeland, Michigan, June 11, 2024 –Herman Miller Gaming debuts a refreshed [Vantum Gaming Chair](#), now available in four bold new colors and a redesigned headrest for even easier adjustments on this versatile chair.

Building on the original, adaptable Vantum designed in collaboration with Logitech G, gamers have the option to choose from additional colors to fit with their unique set-ups and approaches to play: **Nightfall**, a captivating deep blue color; **Mystic**, a meditative lilac that pairs perfectly with cooler, calming spaces; **Helio**, an electrifying orange color that adds serious spark to any competition; and **Abyss**, a striking green color inspired by new frontiers of play. The new colorways will join the current selection of options including Obsidian Black, Polar White, and Flare Red.

The new Vantum's **enhanced headrest** allows for seamless adjustments, so gamers can more easily move it vertically to take a moment to recharge when they are not in the middle of play. The chair also features a new rotation pad design, which improves its ease of adjustability, while the headrest continues to work with the thoracic pad, providing exceptional upper back, neck and head support when in a relaxed position.

The Vantum Gaming Chair was first introduced in 2022. In keeping with the rest of the portfolio, Vantum has been rigorously tested and built to last, backed by a 12-year warranty. The chair is made with durable, sustainability-minded materials, including diecast aluminum and glass-filled nylon.

The updated Vantum Gaming Chair is now available for purchase at the price of \$895 USD and comes complete with a 12-year warranty. To learn more please visit the [Herman Miller Gaming website](#).
